

COMPANY OVERVIEW

AMI is a worldwide healthcare services provider with operations and facilities throughout Africa, Middle East, Europe and United States. Founded in 2011 by two physicians, AMI has grown to become one of the leading providers of commercial medical services and training in some of the most complex and challenging environments. From training South Sudanese military personnel in field combat medicine to ACLS training for paramedics and nurses deploying to Yemen to basic CPR/AED/First Aid courses for offshore workers.

AMI offers over 150 different programs of instruction, including emergency medicine, acute care, childcare, pandemic and epidemic response, industrial hygiene, occupational health and workplace safety. AMI tailors training curricula to meet specific client needs, national licensing and certification regulations, and site-specific requirements, including hazmat. AMI offers credentialed training and registration through international bodies for global recognition of qualifications.
